

How to choose your Fraser | There are many different ways you can become part of the legend. Fraser Cars offer something to suit everybody. Whether you want it all from day one, a little at a time, or to do it yourself, we are here to help at any stage. Choosing your perfect Fraser takes 3 simple steps. 1. Choose a style that you love 2. Think about what options you may like to complete your dream 3. Decide how you will put it together

Step 1 Choose a style		Step 2 Options and upgrades		Step 3 Putting it together	
I like the classic look and will enjoy driving my Fraser on the road and may enjoy some social track events	The Clubman is the style for you	I am happy with the standard options for now	Fantastic, you can always upgrade later	I want to source a lot of my own parts and do as much as I can	The Basic Kit is for you
				I want to start with the basics and build in stages to suit my time or budget	The Basic Kit followed by any, or all Build Stage Kits will suit you
I like the more modern, sporty look, I think I may like to do some track or hillclimb events	The Clubman S will be what you are after	I want to make my car a little bit different	Choose from the options and upgrades sheet	I want to have everything I need straight away to start putting it together in my own time	The Complete Kit is for you
				I want to build my own, I don't have much time or I would like just to do the glory jobs!	We can build your car to a Rolling Chassis stage and you can finish your dream
				I don't have the space or I don't have the time to build my car	The Turnkey option is for you. Let the Fraser Team of experts build your dream
				I need something that you haven't offered me	Let us know, we will be able to help
Step 4 Owning it			Step 5 Living the Dream
